## Documentation corrections/clarifications

---

Any corrections/clarifications to this documentation that arise, subsequent to its posting, will be documented in the, *Are there any corrections/clarifications to the documentation for Banner Financial Aid 2016-2017 New Aid Year Checklist?*, Article # 000034862, and made available through the Ellucian Support Center (<http://www.ellucian.com/Solutions/Ellucian-Client-Support/>). Please refer to the Article periodically as you use to this document.

## Overview

---

The intent of this document is to ensure that you have set up the required tables for new aid year processing.

**Note:** You can also use this document to assist in a new implementation of Banner Financial Aid.

This checklist begins with a description of the Financial Aid New Year Roll process (ROPROLL). The ROPROLL process helps you to set up your Financial Aid system for the new aid year by rolling selected rules from one aid year to the next.

Following the description of the ROPROLL process, the checklist is organized by Financial Aid module. The order in which you set up each module is not important. This document ends with a listing of system validation forms and system tables required for Financial Aid processing.

The following special characters are used throughout the checklist to indicate if a form is required and why it is.

- \* An asterisk beside the form name indicates that the form is an optional system form.
- \*\* A double asterisk distinguishes those forms within a specified module that are required if Banner Human Resources or Banner Finance is installed.
- + A plus sign denotes those forms within a specified module that are required if you implement the specific function (for example, automatic packaging).

## Financial Aid New Year Roll Process (ROPROLL)

---

The ROPROLL process rolls over (copies) selected aid year-specific information from one aid year to the next. Through the process parameters, you have the option to select which rules will be rolled to the new aid year. Parameters 3 through 11 default to Y and Parameters 19 through 21 default to N. If you do not wish to use a certain parameter, you will need to change the parameter value to N. You can determine if the roll was successful by printing or reviewing online the ROPROLL output file created by this process.

**Warning!** If you manually enter rules for a module on the RORRULE, RORWEBQ, RORWTAB, RORWTXT, RPRALGR, RBRABRC, or RORALGO forms before you run ROPROLL, the rules that you have entered manually will not be overwritten. ROPROLL will only roll rules that do not yet exist for the new aid year.

*Example: You have entered a tracking rule for a group, INDVER, on RORRULE for the 2016-2017 aid year, but have not entered rules for other tracking groups. When you run ROPROLL for 2016-2017, the process will perform the Tracking Rules Roll step, if you select it, but it will not update the rules for the INDVER tracking group.*

Use the following checklist to assist you in running the ROPROLL process.

**Note:** The ROAINST value for **IM/EFM Need Calculation Installed** will be updated automatically when the applicable code for the IM Need Calculation process is installed (Early Decision Release or Winter Release).

The ROAINST value for **Banner FM Need Calculation Installed** will be updated when the applicable code for the FM Need Calculation process is installed (Winter Release).

Step 1: **Set up Institutional Options** (ROAINST/ROAUSIO or Parameter 11) -- Set up data on ROAINST and ROAUSIO for the new aid year. You can do this manually on ROAINST and ROAUSIO before you run ROPROLL, or you can use Parameter 11 to perform this step automatically when you run ROPROLL.

Data will only be rolled if it does not already exist in the new aid year.

**Financial Aid Options** (Parameter 11) -- Perform roll of Financial Aid Options data. This parameter rolls the aid year-specific Financial Aid Options data for the current aid year to the new aid year. If you select to use this option, values for parameters 12 through 18 must be entered.

*Tables which are rolled include: ROBINST and RORINID.*

Review the aid year-specific forms outlined in the Financial Aid Options Module section to assure that the aid year-required changes are made.

**Note:** When defining a default Aid Period code, ensure that Periods have been associated with the Aid Period on RORTPRD prior to creating Applicant records for the aid year.

Step 2: **Parameters for Financial Aid Options Roll** (Parameters 12-18) -- Enter values for Parameters 12 through 18 if you have selected to use Parameter 11 to roll the Financial Aid Options data.

- Parameter 12 -- Active  
Indicate if this is an active aid year or not. Values are [A]ctive or [I]nactive.
- Parameter 13 -- Pivot Date  
Enter the pivot date (DD-MON-YYYY).
- Parameter 14 -- Aid Year Description  
Enter a description to identify the aid year (up to 30 characters).
- Parameter 15 -- Aid Year Start Date  
Enter the full date the aid year begins (DD-MON-YYYY).
- Parameter 16 -- Aid Year Start Year  
Enter the year the aid year begins (YYYY).
- Parameter 17 -- Aid Year End Date  
Enter the full date the aid year ends (DD-MON-YYYY).
- Parameter 18 -- Aid Year End Year  
Enter the year the aid year ends (YYYY).

Step 3: **From and To Aid Year Code** (Parameter 01 and Parameter 02) -- Select the Aid Year to roll. Indicate in Parameter 01 the current aid year from which you want to roll the financial aid data. Indicate in Parameter 02 the new aid year into which you want to roll the financial aid data.

---

Step 4: **Group Selection Rules Roll (Parameter 03)** -- Perform Roll of Group Rules. This parameter rolls Group Assignment Rules, Fund Awarding and Disbursement Rules, and Group Packaging Awarding Rules found in the current aid year to the new aid year. Review the aid year-specific forms outlined in each module to assure that the aid year-required changes are made.

*Tables which are rolled include RORGDAT, RORCMPL, RORGSQ and RPRALGR. (Records with inactive rules on RORGDAT and RPRALGR and records with inactive Algorithmic Packaging Group Codes on RTVALGR will not be rolled.)*

Both simple and expert (compiled) rules are being rolled. It is unnecessary to compile the rolled rules for use in processing.

Review the sections of this document devoted to the modules for the RORRULE form to assure that data within the rules is valid for the new aid year.

---

Step 5: **Fund Aid Year-Specific Roll (Parameter 04)** - Perform roll of fund data. This parameter rolls the aid year-specific Funds Management Rules found in the current aid year to the new aid year. 	The Nation Codes and Country Coefficients for RTVCCOE are delivered each aid year with the Early Decision release so the data must be checked each year prior to performing dataload.

## Requirements Tracking Module (\*RESTRACK)

Review the following forms before you create aid year-specific rules for the Requirements Tracking Module to ensure that the codes meet the requirements for the new financial aid processing year (i.e., add the necessary aid year-specific tracking requirements).

- RORPRDS
- ROAINST
- RTVTGRP
- RTVTREQ
- ROAUSIO

If you ran the ROPROLL process to roll the Tracking information or the Group Selection information from the current aid year to the new aid year, review the forms that follow to assure that new aid year required changes are made.

If you rolled Tracking information, review the following forms.

- RRRGREQ
- RORMESG

If you rolled Group Selection Rules, review all applicable simple and expert rules on the RORRULE form.

Use the following checklist to assist you in your setup of the Tracking Module.

Tracking Module	Aid Year-Specific Forms
_____RRRGREQ	<p>Associate tracking requirements to tracking groups for the new aid year. Use the <b>Copy</b> function to copy group rules from the prior year to the new year.</p> <p><b>Prerequisites</b>   <b>Comments</b></p> <p>RTVTGRP RTVTREQ ROAINST</p>

Some views are hardcoded with the aid year (e.g. "1617" would signify the 2016-2017 Aid Year). Other views use the ROBINST_AIDY_START_YEAR AND ROBINST_AIDY_END_YEAR instead of a hardcoded aid year (in this situation, may need to modify the view if you use multiple aid year codes with the same start and end years).</p>

## Tracking Module

**Prerequisites    Comments**

ROAINST  
RTVPGRP

Use the **Copy** function to copy rules from the prior aid year to the new aid year.

Be sure to update rules with hard-coded, year-specific values. If you use ROVA2xx, ROVADxx, ROVAMxx, ROVAYxx, ROVSAxx, and ROVSTxx views, be sure to use the proper year view.

You should review the above views to be sure they meet your aid year definition. Some views are hardcoded with the aid year (e.g. "1617" would signify the 2016-2017 Aid Year). Other views use the

ROBINST\_AIDY\_START\_YEAR AND ROBINST\_AIDY\_END\_YEAR instead of a hardcoded aid year (in this situation, may need to modify the view if you use multiple aid year codes with the same start and end years).

Use ROIGRPI from the prior year to derive group priority codes for the new year on RTVPGRP. Ensure that the **Packaging Default Group Code** exists on ROAINST.

\_\_\_\_\_RPRDEFR\*+

If you use Gap, Self-Help, or Equity Packaging philosophies, create the default rules on the RPRPCKR form for packaging groups.
